Index to Wallaces' Farmer and Iowa Homestead

Volume 70 — **JANUARY TO DECEMBER, 1945, INCLUSIVE** — **Numbers 1 to 24**

General Index

AAA again, or what, 700
committeemen, first meeting of, 824
committeemen, soil conservation, primary job of, 824
given top spot in planning future production, 8
1945, extra pay in, 185
1946, more choice in, 557
post-war, who should run, 300
program be turned over to college extension service, recommend that, 300
program, few changes in '45, 45
program shifts to consumption, 846
statement, corrects, 222
vote was light, 10
will insure flax crop, 187
Abort, suspect sows that, 327
Accident quiz for harvest, 509
Acres, 80, big enough now, is, 844
time to seed more, 121
Afterbirth in cow, retained, when to take, 273
Agriculture, American, months ahead uncertain for, 590
post-war objectives in, recommendations for, 11
Alfalfa build up root reserves, let, 571
phosphorus helped stunted, 475
seed, Argentine, winter killed 89 per cent in 1925, 141
sow, in August, 558
stands, manure or fertilizer, 558
stands top dressed lightly will go thru winter better, 804
strains are tested, new, 558
American Farm Bureau Federation meets December 17-20, 775
Anderson, B. M., dies, 783
Clinton P., new secretary of agriculture, 444
is new food head, 415
Anemia hits early pigs, 182
in pigs, mixture for, 311
Angus field day, 436
Animals, sick, lots of, 389
Anstey, George J., died Feb. 10, 187
Apples keep best, suggestions to make, 847
Armies move on, after the, 537
Army service in peace-time, 348
Artificial insemination groups grabbed nine living proved bulls, 636
Automobiles kill more farm people than do bulls, 420
BAI, Dr. Arthur W. Miller head of, retires Oct. 31, 775
Ball-bearing plants, bomber attacks on, 873
Bang's disease, avoid spreading, 327
disease from infected sows, cows can get, 51
disease, what's sure about, 848
fight, discuss, 10
Barley worth 80 to 85 per cent as much as corn, 601
Barn drafts contribute to colds and pneumonia, 936
Bean acres to shrink, farmers think, 800
Beans, white, grow your own, 180
Bearings full of grease, keep, 847
greased, keep dirt out, 86
on combines and corn pickers, when to oil, 804
Bedding, deep, for animals, value of, 899
material that resists dust and dampness, 51
Belt joints, rough, should be carefully clinched, 51
long, gives more power, 874
Bet, one best, 138
Bill, farm, with teeth in it, ask, 726
Binder should be inspected for repairs, 477
Boards under corn, advantages of, 847
Bomber attacks, army reports on, 873
Bond, E. time to grow, give your, 718
Bonds, war, hold on to, 718
war, why buy, 405
Books and bulletins, 411, 468, 518, 634
Borer belt, plows for, 184
corn, ask how to stop, 586
damage down in '44, 355
for every stalk in one Iowa county, 136
Borers, big increase in, 571
corn, all over Iowa, 62
corn, appearance of corn infested with, 548
corn, dry weather thinned Ohio, 136
corn, increase, 136
kill, with DDT dust, 615
numbers increase, 586
Borrow more, pay more, 153
Break-overs, stop, in contour rows, 346
Bred twice, many cows must be, 314
Breeder, shy, when a bull is a, 475
Breeding, artificial, has attracted interest, 699
artificial, vs. normal breeding, 314
associations (map), 699
of sows, pen, saves pigs and worry, 899
Brooder and hog houses should be cleaned before moving, 352
Brooders, electric pig, how to make, 223
save pigs' lives, 223
Brucellosis growing worse in hogs, 848
in cattle important problem confronting veterinarians, 98
measures for control of, 10
Brushes, paint, care and storage of, 311
Bugs, worms, borers attack corn, 302
Buildings, new public, limited to surplus in treasury, 139
Bull, gold watch, Cooper has second, 636
is a shy breeder, when a, 475
makes record in two ways, 423
Bulls and technicians in close race, 476
farms without, are increasing, 699
farms won't need, 14
high, in sire index contest (chart), 636
Bus, school, license required to drive, 500
Butchering hoist, diagram showing construction of, 847
limits farm, 351
Buy, what'll you, 785
Calendar, rationing, 31, 71, 159, 251, 291, 331, 403, 511, 575, 679, 879
Calf loss, to stop big, 449
Calves, fall, proper feeding and care of, 804
4-H, weight limit set on, 939
Canners, city, may be cut to half ration, 444
Carburetors properly adjusted save fuel, 184
Cattle bought for feeding, more, 272
dairy, to be placed on Guam, 724
fanciers, fat, will attend Chicago Market Fat Stock and Carlot Competition show, 824
fattening, protein concentrate once a day for, 649
feeder, are too high, say, 696
feeder, usually reach markets in October, 705
feeders buy more, 905
feeders get direct payment, 417
feeding up 35 per cent, 474
fewer, more lambs, 808
fewer, to corn belt, 701
gains cut by mud, 224
gains don't pay for feed, 756
go on feed, will more, 347
herds must fit size of silo, 773
movement up 30 per cent, 521
movement up 25 per cent, 594
on feed, more, 100, 313
on feed up, 10
runs, large, soon, 668
runs may be later this year, 705
purchased as stockers and feeders by months, 10-year average of (chart), 666
should have clean place to lie, 140
top at $18, fix, 50
Ceiling prices for 1945 crops, see, 262
prices, possibilities of, 934
Ceilings, floors, subsidies and gluts discussed at Farm Bureau meeting, 890
for butcher hogs not to be lowered before Sept., 1946, 351
government promises to lift, 842
Cellar may be too warm and dry, 896
Cheese, cheddar, test developed to determine pasteurization of, 824
Chickens should be housed before cold weather, 804
Chicks, 8,000, flown from Joliet, Ill., to California, 724
should be cared for before other poultry, 386
66 per cent more, bought after first of June, 775
Chinch-bug migration, soybeans will check, 273
threat for '45 crops, 355
Chinch-bugs, examine fields for, 416
stop migration of, 416
Cholera cycle due to swing upward soon, 724
hog, strikes, when, 15
hog, way to spread, 804
outbreak is now overdue, 168
vaccination, hog, cheap insurance, 420
when to vaccinate for, 314
Chute for hogs, portable, how to make a, 548
CIO workers fined $12.50 each, 62
Clipping or pasturing oats may save clover but reduce yield, 386
Clods will result in wet fields tramped by livestock, 224
Clover for seed should be dead ripe when cut, 601
heads, seed in, determines size of crop, 548
in stubble, cut, 667
keeps oat shocks damp, 477
keeps oat shocks damp, 477
second-crop, may be profitable as seed crop, 27
seed, AAA payments for, 548
seed, money returns should be considered on, 548
seed or feed for, 527
late cutting of, disadvantages of, 501
red, timothy and brome grass seed may be in fair supply, 15
sweet, alsike and alfalfa will be short, 15
time to cut, 451
under plow, late, 667
Coal and coke, Poland has a lot of, 724
now rationed in some states, 327
Cocklebur buds will poison cattle and hogs, 311
cutting should be properly managed, 601
in Iowa field, find new, 853
Combine should be inspected for repairs, 477
Compulsory training, 333
Concrete better for floors than ditches, 592
makes good feeding floor, 592
Contour lines, how to make, 266
rows keep soil and water off fields below, 266
rows, stop break-overs in, 346
Contouring and drainage, emphasis on, 45
yield advantages in, 63
Cooper has second gold watch bull, 636
Corn acreage to be big, 271
acres at high peak, 451
attack, bugs, worms, borers, 302
belt men look over new secretary, 476
big, gets worms, 303
borer, European in 400 counties of corn belt, 62
borer population increased, 824
borers easy to find, 548
borers increase, 136
borers most likely to damage real early or late corn, 352
ceiling prices (map), 326
cobs good for feed, fertilizer, 703
cobs recommended for making solid spots of mudholes, 140
contoured, yield advantage of, 63
crib should be inspected before filling, 804
crop big in quantity, 746
crop, cribbing trouble for big, 746
crop hit by drouth in Cuba, Mexico and Central America, 775
crop in European countries less than last year, 775
crop in 1944 broke records, 26
crop, insects that attack, 302
crop insurance, try, 272
crop insurance, two kinds of, 310
crop, to insure, 310
cultivation is of no benefit except as weed control, 447
dries faster in field, 804
dries more slowly in a round pen, 899
drilled, weeds can be stopped in, 344
dry, fix cribs to, 625
drying ten times, speeds up, 688
frosted, must be cut promptly to save leaves, 649
full feed of, time needed to put cattle on, 804
full feed of, watch cattle closely as they get on, 804
grading rules told, 939
growing, save labor in, 73
half a stand of, makes three-fourths of a corn crop, 386
harrowing, does less damage than appears, 420
how deep to plow, 260
how much moisture spoils, 699
hybrid, farmers give reasons for using, 62
hybrid, reasons given for not planting, 62
in open cribs, move, 102
insurance, accept, 416
is key to various shortages, 526
kernels, how deep to plant, 352
labor and power requirements for growing, 73
lay by, when weeds are whipped, 447
leaves have greatest food value next to ears, 649
like the heat; hens don't, 537
loans average 3 cents higher, 928
loans now, can get, 928
lodge, root worms make, 718
lots of ways to tend, 344
mature, should be cribbed first, 804
may rot in cribs, 264
meet needs, will, 496
moisture content of, safe for cribbing, 804
moisture test can fool you, 805
moldy, least harmful to cattle, hogs and sheep, 447
more, on level rows, 62
must dry, or take loss, 121
new, at 75 pounds, 823
new, start slowly when feeding, 705
new, wins yield test, 181
on farms up one-third, 529
or hay dries more rapidly with warm air, 141
over, when to plant, 382
parity, Pace formula on, 873
pens, outside, may be covered with roofing paper, 899
picker operators, hints for, 804
picker well oiled, keep, 804
pickers should be watched for shelled corn leakage, 804
picking different in 1945, 892
picking, late, means more time for other fall jobs, 601
picking quiz, 746
piled in double crib driveway, disadvantages of, 273
piles, advantages of boards under, 847
planted in furrows holds water, 344
planter is dropping right number, field test necessary to make sure, 352
planter makes good checks, when, 352
planter plates, click of, listen to, 386
plowing most highly skilled job on farm, 414
production, 1945-46 world, less than previous year, 775
rows required for an acre, rows 80 rods long, 352
rows with little jerks or sharp turns hard to cultivate, 386
samples for testing moisture content, where to take, 184
sealed in cans will grow after five years, 724
seed-bed for, made in April, 260
seed in ground, wire-worms start on, 302
shelled, spoils more quickly than ear corn, 273
short time to save, 222
should not be cribbed containing more than 20 per cent moisture, 751
silage, ear hogs eat, 668
silage, ear, storage of, 264
silage with corn put good finish on steers, 548
silk on, to maturity requires 51 days, 699
soft, 616
soft, brood sows provide way to market, 601
soft, feeding, 679
soft, how to handle, 625
soft or high moisture, feed now, 847
soft, plans for, 871
soft, save your, 703
soft, tells easy way to dry, 588
soft, three methods for saving, 703
soft, will shell when frozen, 899
some fertilize, 40
stalk disease, symptoms of, 847
stalks, who gets the, 575
stand, a good, 382
takes fertility from the soil, 388
temperature in middle of crib, how to take, 936
to cattle, good way to start feeding, 649
top, half-cent up, 200
treated, makes better stands, 303
treatment, seed, 303
turns yellow, if, 500
weedy, is made now, 380
wet, needs air, 644
wet, how to save, 264
wet, stopped husking rush, 892
wettest, in 18 years, 808
wettest, in 17 years, 746
when to disk, 260
when to harrow, 260
will spoil earlier than usual this year, 184
will wet, hit market, 833
without roof should be moved before March, 140
yellow, lack of plant food causes, 500
yield is below '44, 896
yields in northern and southern Iowa, best, 352
yields may not permit livestock increases, 496
Cotton less than for many years, 775
County Extension Directors Association, new president and other officers of, 873
Cow herds, records help build good, 86
herds, requisites for building good, 86
milk, amount of grain for, 273
replacements, suggestions for, 95
sick, at Smith's, 274
Cow's first heat period, 15
Cows, good, don't eat their heads off, 822
good, net return is bigger from, 382
milk, should be fed lots of roughage, 103
out of corn field, suggestions for keeping, 705
sell badly infected dairy, 222
Cranberry production exceeds 10-year average, 873
Creeping Jennie, how to control, 420
Cribbing trouble for big corn crop, 746
ways, try new, 892
Cribs, fix, to dry corn, 625
several ways to ventilate corn, 644
Crop adjustment in peace-time, 846
insurance ready soon, 92
rotations, how to arrange, 804
Crops grow on hill land, 717
see ceiling prices for 1945, 262
supports for '45, 227
Cruise, M. H., dead, 543
Cultivators, takes skill to set, 414
Currency in circulation, 62
Current to farms, get, 716
Custom rates to go up, 134
Dairy management, requisites of good, 86
pay 4 cents higher now, 823
pay rate is fixed, 187
price supports, 822
Dairying, start, young, 648
Damp conditions in brooder houses, troubles caused by, 273
Dams, check gullies with, 719
DDT bug killer, 306
dust, kill borers with, 615
is potent, useful, 797
is slow poison, 595
helped Arabs go to sleep, 556
on hog lice, try, 702
powder and oil spray should be properly marked, 751
spray, be careful with, 797
state entomologists explain uses and dangers of, 702
Deferments, farm, Washington debates, 80
Dehorn cattle, when to, 649
Depreciation, several methods of figuring, 17
Dickens, Charles, the town that made, see red, 802
Disaster, prevent, 405
Diseases, face two bad, 98
of livestock and poultry at standstill during war years, 824
Disk bearings, wood, should be replaced if worn, 184
Ditch control on roadsides, ask, 668
Ditches, find grass to stop farm, 216
Doctors in favor of organized group of physicians, 62
Done next, what's to be, 513
Draft boys in peace, 333
farm, no big, is expected, 46
Drain cocks on tractor radiators sometimes get clogged, 936
Drills with broken leg, 489
Dust out of hog house, get, 804
treatment for seed corn, 303
Ears, roasting, ripen, will, 669
Eat, more to, for everybody, 806
Egg buying program steadied egg prices, 724
eating hen, trim beak of, 548
goal is pushed up, 47
prices, to support, 282
prices, two methods used to support, 253
production stays high, why, 62
shortage, talk of, 253
surplus, 873
Eggs, graded, various weights of, 420
parasite, damp conditions develop, 273
what price for, 253
Electricity saved by reflectors in poultry house lighting, 141
Elevator men, farm, expand services, 84
Elevators, co-op, buy office building, 777
thinking of acquiring grain terminal facilities, 84
Emblem, discharge, 538
Europe, hungry folks in, 473
hungry, more help recommended for, 640
Ewe, pregnant, grain ration for, 95
Ewes, shed room for, 15
Eye protectors should be equipment in every farm shop, 184
Eyes, wild look in, cow has, 556
Fair, Iowa, hope for 1946, 26
time, state, preparations for, 824
Fairs, announce 89 local, 543
FAO tries to match famine and surplus, 806
Farm and feed-lot, 13, 42, 82, 131, 175, 472
and home week by radio only, 102
assets, depreciating, 17
bloc collides with the administration regarding parity income, 894
Bureau state convention in Des Moines, Nov. 19-21, 824
folks make farm news, 642, 692, 754, 809, 895
folks want, what, 785
job after threshing, first, 513
net from $1.47 to $17 per acre, 666
news briefs, 62, 724, 775, 824, 873
pay, small, good soil, livestock farming and good management can make, 844
policies for war and peace, Washington debates, 80
policy for Truman, what, 342
prices in 1946, discussion over, 934
prices show an upward trend, 461
prices, which way on, 576
production higher in World War II, 99
products will suffer with pay roll slashes, 851
program, more local control in, 854
programs, economists discuss future, 700
record book, 1945, not too late to start, 94
same, 450 years on, 736
small, vs. large farm, 844
supports, more cash for, recommended, 640
what belongs to a, 136
Farmers, older, produce food for war needs, 496
small, plans for helping, 801
Union board adopts program, 523
weeks start, new, 933
Farming, if you quit, 545
peace-time, making farm program fit, 846
Farms, French, report on, 537
Farrow in 12 hours, two signs sow will, 224
Farrowing houses should be cleaned with lye water, 141

Feed bag, how to open a, 184
changes, sudden, may cause digestive disturbances, 705
is saved when self-feeders for hogs are set on a board, 477
more, for fewer hogs, 178
more, on hand, 326
prices under control of OPA, 543
problems of 1945 to be discussed, 660
protein, with corn and hay will fatten cattle, 477
rough, will be in greater supply, 649
situation good, 698
supplies discussed at Farm Bureau meeting, 890
troughs for chicks, size of, 184
yards, proper time to fill holes around, 751
Feeder cattle margins (chart), (what it takes to break even), 756
cattle prices higher than year ago, 548
cattle show, 541
Feeders for chicks should be kept full, why, 273
in poultry houses, half full is good rule for, 94
in safe position for a time, 417
prices and margins worry, 698
tell Anderson, 476
Feeding of pigs, full, vs. limited feeding, 548
Fence, good set for end posts in constructing, 230
Fertilizer demand, reasons for, 750
farmers use more, 750
for corn, amount and how to apply, 352
how to apply, 179
on corn land, does it pay to use, 40
precautions to be taken for storing, 750
should be ordered this fall, 705
should not be placed in direct contact with seed, 273
supplies should be ordered early, 15
supply is limited, 16
use, farmers talk about, 40
used to stimulate grass and build up soil, 40
when to spread, 601
where to store, 936
Fever, undulant, may be acquired handling new-born pigs, 140
undulant, may be spread from hogs to cattle, 848
Fields, cloddy, should be harrowed immediately after rains, 311
trampled, require extra work, 141
Files, steel, correct use of, 95
Fingers, mashed, suggestions for avoiding, 352
Fire hazards, 704
losses increase, 704
Fires, roof, causes of, 751
First aid for stock, 314, 350, 383, 422, 460, 525, 556, 602, 665, 758, 819, 852, 902, 937
Fistula may require an operation, 556
Fixation is liming soil, 225
Flag salute in school, 615
Flax acres, extra pay for, 92
crop, can insure, 187
premium 1.3 bushels, 226
Floors, cement, value of, for self-feeders, 751
feeding, save feed, 548
hay-mow, may be overloaded with baled or chopped hay, 649
Flu, hog, to prevent, 755
preventive, best, 804
sick hogs should not be disturbed, 936
Fly, heel, pasture shade helps control, 420
killer, deadly, being tested, 306
Fodder worthless if cut after leaves have fallen, 705
Food alarm grows in Washington, 170
consumption, ways to increase, 846
exports, Truman asks aid for, 640
goals may rise again, 8
hearing, congressional, 476
problems, congress hears, 262
subsidies to end soon, 842
win the peace, will, 306
Foot-rot, apply sulfa drug to, 314
Foundations, proper time to bank up, 751
Frost damage beans for seed, did, 821
soon, could get, 594
FSA appropriation, congress favors, 262
loans paid off, one-fifth of, 9
wants more for, 47
Fuel in early, get your, 575
tractor, saved by proper carburetor adjustment, 420
Garden cultivation, frequent stirring important in, 315
plow, early, 228
producing, keep, 275
seeds out, get, 180
spot now, pick, 138
suggestions, helpful, 315
tools, 315
Gardening by superstition, 320
Gardens, fall-plowed, work better in spring, 804
Gas, carbon monoxide, has no smell, 51
farm, ask for now, 132
Gasoline containers, where to keep, 224
Gate idea sent in by John W. Petersen, 286
should be shut when you go in livestock yard, 601
Gates, barbed wire, which can be operated by children, 386
Gestation period, length of, for young animals, 153
Gi Joe comes home, when, 161
Girton, Earl, has new job, 487
Goals, 1946, 935
Grain bins, white, keep grain 10 degrees cooler, 447
damaged, threshing before it is dry results in, 539
ration for pregnant ewes, 95
stocks are up, 388
stocks increase, 135
Grange wants, what, 898
Grapevines can be trimmed in early March, 184
Grass, Reed's canary, qualifications of, 216
seed, early sown, does best, 273
seed, pay for harvesting, 413
steers gain on, 500
to stop farm ditches, find, 216
Grasses, mixed, make good meadows, 212
sod-forming, build soils, prevent bloat, make stands last, 212
with legumes, reasons for sowing, 212
Gravel punishes tires, 575
Ground rotation, clean, 94
Grubs in cattle backs, apply rotenone dust preparation for, 51
Gullies, check, with dams, 719
farm, how to get rid of, 663
Hand lost but keeps on farming, 854
Harvest brigade, 28
Hash, soldiers', Metaldehyde for warming, 62
Hat, hold onto your, she-s a-blowing, 33
Hay, amount of, for each milk cow, 95
and corn drier made by farmer, 854
baled or chopped, may overload hay-mow floors, 649
best time to mow, 561
curing method, advantages of new, 555
curing not affected by time it is cut, 561
driers insure good hay in wet seasons, 229
in barn, put, then cure it, 555
in stack, when to put, 447
keeps better in mow if torn apart, 447
load, upsetting, how to jump off an, 561
making, take sweat out of, 412
neighbors make, 437
phosphate makes better, 308
priorities needed by some farm animals, 899
save, in wet spells, 418
settled, alfalfa, weight of, 447
